

## Abel PRINTER 25 mm wide labels One tough labeller

# YOUR TOUGHEST LABELLING JOBS **JUST GOT A LOT EASIER**

Specifically engineered for premium 25 mm printing, the M410 Label Printer is an everyday workhorse for contractors, datacom and electrical professionals. Create and print labels faster with its intuitive QWERTY keypad and programmed pre-set label options for wire marking, flagging and breaker box identification.

# **THE M410 LABEL PRINTER**

Power through whatever the job throws at you

Super intuitive keypad

25 mm wide labels

Flexibility for any jobsite

# DESIGNED TO HANDLE WHATEVER YOUR WORK DEMANDS

A Upload and go Import data through the USB port

B Faster changeovers Simple all-in-one, dropin cartridges

C Fit for many applications Pre-sized and continuous labels (6.4 to 25 mm width)

Label design guides Reduce errors and save time with intuitive guides

#### M410 accessory

Utility hook More time-saving tools to get the job done. **See page 31** 

# SIMPLY INTUITIVE **SUPER TOUGH**

More materials, more sizes and more applications mean more ways to get work done. Take on your toughest jobs with the M410.

## Rugged. Reliable. Ready for your work.

Durable, industrial design - withstands 1.2 m drops

Edge-to-edge printing - more room to fit the data you need with no label waste

Up to 25 mm wide labels - ready to wrap, sleeve, tag and flag

## Flexible data entry options that work with you

Connect to Brady Workstation through USB 2.0 port (Type A and B)

Work at an accelerated pace with 440 onboard symbols and on-board label design guides

Design and print labels using the intuitive printer keypad or desktop software

Create identification the easy way with the M410 printer + software system. With it, you can design and print labels seamlessly - wherever and whenever you need them.

Barcodes and graphics

#### Label sequencing

#### **Brady Workstation software:**

- 20+ barcode types
- 85+ fonts

- $\blacktriangleright$  1,400+ symbols
- Label saving and sharing

#### Work the way your work demands

## **Material overview**

| Material            | rial Finish Temp (°C)<br>(Tested for 30 days)<br>Min. Max. |         |          | Additional Features   | Approval/Compliance   |  |  |
|---------------------|--|---------|----------|---|---|--|--|
| FreezerBo           | <br>ndz™ Polyesi   |         | wax.     |   |   |  |  |
| B-490               | Matt   | -196 °C | 130 °C   | Can be applied to frozen surfaces including glass and polypropylene stored in liquid nitrogen, except for Vial Tops. Material must slightly overlap itself.   |   |  |  |
| B-492               | Matt   | -196 °C | 110 °C   | Ultra thin; can label frosted/frozen (with overlap) or room temperature labels and lasts in liquid nitrogen and hot water baths   |   |  |  |
| Heat-shrin          | ık Polyolefin  | 1       |          |   |   |  |  |
| B-342               | Matt   | -55 °C  | 130.6 °C | 3:1 ratio heat shrinkable wire marking sleeve that fits snugly around wires for identification and protection. Fade-resistant and flame retardant.  | UL Recognised to UL224, SAE-AMS-DTL-23053/5 C<br>(Class 1), SAE AS-81531                                |  |  |
| B-7641              | Matt<br>Polyester  | -55 °C  | 105 °C   | 2:1 ratio heat shrinkable, zero halogen wire marking sleeves. The wire marking sleeves offer outstanding fire safety properties and minimal smoke emission. Also available in yellow.   | BS-6853 (1999) Vehicle Category 1A; EN-45545-2,<br>requirement 24, Vehicle Category HL3, Zero Halogen   |  |  |
| B-428               | Matt   | -70 °C  | 120 °C   | Thermal transfer printable metallised polyester with matt finish.<br>Withstands solvents and variable temperatures. Excellent for serial<br>and rating plate applications with name-plate quality and a metal-<br>looking finish. | UL Recognised, CSA Accepted, AGA Approved, Halogen<br>Free (DIN VDE 0472/part 815)                      |  |  |
| Nylon Clot          |  |         |          |   |   |  |  |
| B-499               | Matt   | -40 °C  | 90 °C    | Nylon cloth material with matt finish. The adhesive allows labelling in environments with heat, cold, oil and dirt. Also available in yellow.   | UL Recognised, CSA Accepted, Halogen Free (DIN VDE 0472/part 815) Approvals are for White material only |  |  |
| Paper               | N.4-44   | 70.00   | 100.00   | William disastruktura en Disastruktura en en lataka in unatara la suita en es   |   |  |  |
| B-403<br>Polyester  | Matt   | -70 °C  | 100 °C   | White dissolvable paper. Dissolves completely in water leaving no adhesive residue, ideal for temporary labelling applications  |   |  |  |
| B-414               | Matt   | -40 °C  | 50 °C    | Get a grip on your wire and cable identification - Brady and  |   |  |  |
| D-414               | Matt   | -40 0   | 50 0     | VELCRO <sup>®</sup> Brand have partnered to bring you BradyGrip <sup>™</sup> Print-on<br>Hook Material, an exclusive print-and-place material that can be<br>easily applied, repositioned or removed.                             |   |  |  |
| B-422               | Gloss  | -40 °C  | 100 °C   | Designed to withstand solvent exposure. Used for component identification, barcoding, asset and inventory tracking.   | UL Recognised, CSA Accepted   |  |  |
| B-423               | Gloss  | -70 °C  | 110 °C   | Widely used for component identification, barcoding, asset and inventory tracking.  | UL Recognised, CSA Accepted, Halogen Free (DIN VDE 0472/part 815) Approvals are for White material only |  |  |
| B-430               | Gloss  | -70 °C  | 100 °C   | Translucent, high performance polyester material with a glossy finish. Thermal transfer printable.  | UL Recognised, CSA Accepted   |  |  |
| B-483A              | Gloss  | -40 °C  | 120 °C   | White polyester thermal transfer printable material with glossy finish and aggressive adhesive specifically designed for powder coated surfaces.  | UL Recognised, CSA Accepted   |  |  |
| B-488               | Matt   | -40 °C  | 145 °C   | White polyester thermal transfer printable material, similar to B-423, but with matt finish. Widely used for component identification, barcoding, asset and inventory tracking.   |   |  |  |
| Polypropyl          | lene   |         |          |   |   |  |  |
| B-412               | Matt   | -40 °C  | 100 °C   | White polypropylene tag material with matt finish. Offers high print legibility and high tensile strength.  |   |  |  |
| B-425A              | Matt   | -70 °C  | 30 °C    | White polypropylene material stock with matt finish for thermal transfer printing or write-on applications. Excellent solvent resistance and print performance; not recommended for long-term outdoor use.                        | UL Recognised, CSA Accepted, Halogen Free (DIN VDE 0472/part 815)                                       |  |  |
| B-7425              | Matt   | -80 °C  | 70 °C    | White Polypropylene material. Ideal for laboratory identification<br>such as vials, centrifuge tubes and test tubes. For freezer or liquid<br>nitrogen applications, B-7425 must be applied prior to being frozen.                |   |  |  |
| Reflective          | Tape   |         |          |   | · · · · · · · · · · · · · · · · · · ·   |  |  |
| B-584<br>Self-Jamin | Gloss<br>ating Polyeste                                    | -40 °C  | 70 °C    | Suitable for outdoor use. Also available in silver and yellow.  |   |  |  |
| B-461               | Matt   | -196 °C | 110 °C   | Permanent adhesive; suitable for liquid nitrogen application if material is wrapped around itself, as in self-lamination; write-on capabilities. Temperature range increases to 121°C when used in autoclave process              |   |  |  |

| Material    | Finish      | Temp (°C)<br>(Tested for<br>Min. | 30 days)<br>Max. | Additional Features   | Approval/Compliance   |
|-------------|-------------|----------------------------------|------------------|---|---|
| Self-lamin  | ating Vinyl |                                  |                  |   |   |
| B-417       | Matt        | -40 °C                           | 70 °C            | Keep your wire identification secure with this self-laminating marker<br>with extra-strong adhesive. The extra-strong adhesive makes these<br>markers ideal for small-diameter wires. Features a white printable<br>area and a clear tail that wraps around the marker.   | UL Recognised to UL969 Labelling and Marking<br>Standard when printed with the Brady Series R4300<br>and R7950 ribbons. See UL files MH62024 for specific<br>details. Brady customers should specify at purchase if<br>they require UL Recognised B-417 labels. Brady sells<br>both UL Recognised B-417 labels and non-approved<br>labels depending on customer requirements  |
| B-427       | Matt        | -40 °C                           | 0° C             | Thermal transfer printable, self-laminating material. These labels<br>have a printable area with a clear "tail" that wraps around the<br>marker. The "tail" serves as overlaminate to protect the print.<br>Superior resistance to abrasion, solvents, water, oil and dirt. Also<br>available in grey, brown, green, yellow, blue, red, purple, orange.   | UL Recognised to UL969 Labelling and Marking<br>Standard when printed with the Brady Series R4300<br>and R6200 ribbons. See UL files MH17154 for specific<br>details. Brady customers should specify at purchase if<br>they require UL Recognised B-427 labels. Brady sells<br>both UL Recognised B-427 labels and non-approved<br>labels depending on customer requirements. |
| Vinyl       |             |                                  |                  |   |   |
| B-581       | Gloss       | -40 °C                           | 82 °C            | Only indoor use, where frequent repositioning is required   |   |
| B-595       | Gloss       | -40 °C                           | 82 °C            | Durable, low-shrink vinyl with our most aggressive adhesive.<br>Conforms to irregular, curved, rough and highly textured surfaces<br>(painted cinder blocks, uneven wood, textured plastics, paper-<br>jacketed pipes, powder-coated surfaces). Adheres to "difficult"<br>low-surface energy items (PVC piping, blow-moulded equipment<br>cases, ABS plastics, recycled plastics). Available in a wide range of<br>colours. | BS 5609:1986 Section 2 and section 3  |
| Vinyl Cloth |             |                                  |                  |   |   |
| B-498       | Semi-gloss  | -40 °C                           | 80 °C            | White vinyl cloth label material with glossy finish. The adhesive<br>and cloth backing give excellent holding power, while being<br>repositionable and removing cleanly.  | UL Recognised   |

## Enjoy a more premium labelling experience with optimised Brady Authentic materials

Authentic materials work seamlessly with Brady printers to produce enhanced performance and reliability you just don't get with materials from the "other guys." Get authentic. Get better with Brady.

## **Material overview**

# THE RIGHT LABEL FROM THE RIGHT PARTNER

### **Data with durability**

The M410 helps you power through work faster with 110+ hassle-free drop-in cartridges designed to handle whatever the job demands. Simple and intuitive, the M410 will keep pace as you wrap, sleeve, tag and flag your way through your most challenging work.

#### Your time- and cost-saving benefits include:

**DECREASED SETUP TIME** 

FEWER LABEL ERRORS

**COMPLIANT LABEL CREATION** 

## Get the job done right on any jobsite

Optimise your performance with Brady materials

#### **DATACOM & TELECOM**

- Keep compliant with protective self-lams and flags
- Convey more information printing edge to edge
- Communicate better with patch panel and faceplate ID

#### WIRE & CABLE, ELECTRICAL

- Use 1 tool for multiple on-site applications
- Create pre-set label options
- Wrap, sleeve, tag and flag through challenging work

#### **GENERAL IDENTIFICATION**

- Do more with a surplus of sizes, colours and materials
- Easily locate equipment, assets and batches
- Take on tough jobsites with purpose-built materials

#### Router, server, faceplate, outlet and patch panel labels

Create the labels you need in one easy process. Create a fully-formatted serialised punch block label to fit your equipment or label your ports, jacks and outlets with adhesive labels or slide-in strips.

- Developed to withstand abrasion and low temperatures
- Designed to withstand exposure to numerous solvents
- High adhesion to textured metals, powder coated surfaces and low surface energy plastics

Enjoy a more premium labelling experience with optimised Brady Authentic materials

Authentic materials work seamlessly with Brady printers to produce enhanced performance and reliability you just don't get with materials from the "other guys." Get authentic. Get better with Brady.

## Voice & datacom identification

#### How to read an order reference: example M4-91-427-YL

-Brady material number (B-number)

427

YL Optional colour

### **Voice & datacom identification**

#### Closets, racks, frames and blocks labels

Durable materials, easy to slide in or stick on providing clearly legible identification to guarantee swift routine and non-routine maintenance as well as emergency repairs to keep the infrastructure running smoothly.

- Flexible with high-tack adhesives for easy and long-lasting adhesion
- Various sizes in several durable materials
- Rating plate labels offer a metal looking finish

## Equipment, inside panel component, air conditioning & power gear labelling

Operational efficiency is also crucial in the datacenters' grey spaces in order to guarantee qualitative data availability and transfer. Clear identification may relieve the burden for data center maintenance or repair technicians in an effective way.

#### Self-laminating wire & cable markers

Self-laminating markers feature a printable zone in white or yellow and a transparent, non printable area that wraps around wires and cables and serves as an overlaminate to the printed text.

- Designed to adhere to highly curved surfaces, wires and cables
- Superior resistance to abrasion, handling, solvents, water, oil, dirt and more

#### High adhesion self-laminating wire & cable markers

B-417 high-adhesion self-laminating vinyl wraps are for tough conditions, including high-humidity environments, small diameter wires and newer wire jacketing materials. Features a white printable area and a clear overlaminating area that protects the print.

- Dependable, long-term adhesion to small diameter wires
- Strong adhesion to a variety of wire jacketing materials, including Teflon™, silicone, braided and traditional PVC

#### Rotating self-laminating wire & cable markers

The B-427 self-laminating Rotating Label can be rotated around a cable thanks to a non-adhesive printable zone and a translucent, self-adhesive laminate that is wrapped around a cable. • Faster cable identification thanks to a label that can be rotated around a cable to make its print

- visible from any angle
- Industrial grade label that stays attached and remains legible on cables and components
- Spins freely around your Cat 5 and fiber optic cables, no adhesive residue or label parts to cling to your wires

#### Cable flags

The flag wizard allows to create a flag label that perfectly wraps around a wire or cable, with the ends joined together to form a flag.

#### BradyGrip<sup>™</sup> print-on hook material

BradyGrip™ Print-on Hook Material is a one-of-a-kind solution that allows identification to be easily printed and placed on bundles. A grippy backing makes it easy to reposition or remove, so no need for costly rework. Just print on and place - it's that simple.

- Maximises your uptime with faster, printable ID for cable bundles.
- Apply, reposition and remove with exclusive, print-and-place material.
- Offers a non-damaging alternative to nylon cable ties.
- Customise labels to fit big or small jobs by printing on different-width material.
- VELCRO<sup>®</sup> Brand ONE-WRAP<sup>®</sup> product not included with purchase.

#### PermaSleeve PS wire marking sleeves

Permanently mark wires with the durable PermaSleeve PS heat-shrink polyolefin sleeve label material, designed specifically for rigorous cable and wire marking applications.

- Durable: Self-extinguishing and resistant to extreme temperatures, UV light, chemicals, fuel and oil.
- Efficient: Fast shrinking with 3:1 shrink ratio; permanently adheres to wires quickly with a heat gun.
- Certified: UL Recognised to UL 224, RoHS Compliant to 2011/65/EU (Pass 2015/863), SAE AS23053/5 (Class 1), SAE AS-81531, MIL-STD-202.

#### PermaSleeve Low Smoke Zero Halogen wire marking sleeves

Permanently mark wires and cables with the low-smoke, halogen-free B-7641 polyolefin label material, designed for mass-transit and marine applications where flame-retardant, low-smoke wire marking materials are required.

- Durable: Flame-retardant and resistant to temperatures from -30°C to 105°C.
- Efficient: Fast shrinking with a 2:1 shrink ratio; permanently adheres to wires quickly with a heat gun.
- Certified: RoHS compliant to 2011/65/EU (Pass 2015/863).

#### Self-laminating wire & cable markers

Self-laminating markers feature a printable zone in white or yellow and a transparent, non printable area that wraps around wires and cables and serves as an overlaminate to the printed text.

- Designed to adhere to highly curved surfaces, wires and cables
- Superior resistance to abrasion, handling, solvents, water, oil, dirt and more

#### Breaker box identification

Specially designed markers that offer a highly unique adhesive for excellent holding power to stick to all kinds of synthetic plastics or composite materials electrical panel covers can be made of. Specially designed narrow or medium-narrow width continuous tapes for easy mounting and alignment with the electrical circuit breakers.

## **Electrical identification**

#### Rotating self-laminating wire & cable markers

The B-427 self-laminating Rotating Label can be rotated around a cable thanks to a non-adhesive printable zone and a translucent, self-adhesive laminate that is wrapped around a cable.

- Faster cable identification thanks to a label that can be rotated around a cable to make its print visible from any angle
- Industrial grade label that stays attached and remains legible on cables and components

#### Wrap around wire & cable markers

Durable vinyl cloth wrap around wire and cable markers made with an adhesive that allows the markers to be removed cleanly and re-applied if necessary.

- Highly unique adhesive and cloth construction
- Ideal choice for marking both ends of a wire that may need be cut shorter before final termination

#### Terminal block markers

Specially designed markers that offer a highly unique adhesive and vinyl cloth construction for excellent holding power, while still allowing for clean removal and application.

- Specially designed narrow-width continuous label for alignment on terminal blocks and patch panels
- Software can auto-serialise these labels to help save you time

#### Bin, storage, reflective and general industrial labels

Choose from several materials and types of labels that offer an aggressive adhesive for use in commercial and industrial applications. Bin, storage & industrial labels are ideal for commercial / industrial applications, while reflective can be used for low light or inclement weather conditions.

- Recommended for low surface energy and textured surfaces
- Reflective is ideal for outdoor utility poles and pedestals, equipment on site and rooftop equipment

## Facility & safety identification

### Facility & safety identification

#### Repositionable vinyl (B-581)

Best choice for indoor marking where frequent repositioning is required, such as shelves. Special adhesive allows easy removal of label to re-apply again and again.

#### Indoor/Outdoor Grade Facility & Safety Labels

Pliable vinyl that conforms well to smooth or rough surfaces such as pipes, walls, doors, panels, shelving, bins and equipment. Lasting up to 8-10\* years outdoors, these labels offer excellent resistance to oils, detergents, dirt, grime and many solvents.

- Durable, low-shrink vinyl with our most aggressive adhesive
- Works for a variety of applications , including 5S labels, pipe markers, arc flash, chemical labels and more

\* Average expected outdoor life of product will depend on user definition of failure, climatic conditions, mounting techniques and material colour. The 8 to 10 year outdoor durability applies to the vinyl label stock only; ribbon durability will vary. A polyester overlaminate is recommended for harsh environments - long term exposure to wind and rain.

#### Slide labels

Brady offers labels specifically designed to identify slides and to resist exposure to harsh chemicals during the slide staining process. They perform well in the hematoxilin and eosin slide staining process and offer superior chemical resistance also useful in other laboratory contexts.

| Diagram | Order Reference | Material | Special Properties | Label Width A (mm) | Label Height B (mm) | Labels per Roll |

|         | M4-81-488       | B-488    | FA                 | 48.26              | 6.35                | 160             |

#### **Specimen process marking**

#### Centrifuge / microcentrifuge labels

Brady offers a wide range of Centrifuge, Eppendorf and PCR Labels. When applying a self-laminating label, we recommend you avoid touching the adhesive side of the label when wrapping it around a vial or tube, to ensure maximum adhesion.

Hot water bath (100°C)

#### Cryo tubes & vials

Brady offers a range of labels designed specifically to identify laboratory samples for cryo storage. These labels can be applied to room temperature or to already frozen samples, albeit with a small overlap. The label will remain legible and will stick to the sample container during processing, even when exposed to extreme heat or chemicals like DMSO, Xylene and Ethanol, ensuring secure sample identification in the most challenging laboratory conditions.

#### Well plate labels

When total tracking of all sample collections is required then Brady has a solution for Well plate identification. Our well plate labels guarantee crystal clear text and barcoding for most lab environments.

#### Lean lab identification

#### Water dissolvable labels

B-403 water dissolvable paper label dissolves completely within 30 seconds exposure to warm water without damaging the surface or leaving sticky residue, making it ideal to label items that need new identification after every use.
